INTERNATIONAL DISTANCE SCIENTIFIC CONFERENCE
«ECONOMICS, MANAGEMENT AND SOCIAL SCIENCES (GLOBAL SCENARIO)»
India - Kyiv, October 2, 2024

The International Conference on Economics, Management, and Social Sciences in the global scenario is a significant event that brings together scholars, researchers, practitioners, and policymakers from around the world to discuss and exchange ideas on various aspects of economics, management, and social sciences. These conferences serve as platforms for sharing the latest research findings, discussing current trends, and addressing challenges in these fields. In this conference, participants present their research papers, engage in panel discussions, attend keynote speeches by eminent experts, and network with peers to foster collaborations and partnerships. These conferences provide a valuable opportunity for interdisciplinary dialogue, where experts from different disciplines come together to explore complex issues from multiple perspectives. By facilitating knowledge exchange and collaboration, these conferences contribute to the advancement of research and the development of innovative solutions to global challenges.

Working languages of the conference: Ukrainian, English

Areas of work of the conference:

1. Economic development and growth (macroeconomic policy, economic inequality and poverty reduction, regional development strategies, sustainable economic growth);
2. Financial management and markets (financial innovations and technologies, investment strategies and change management, risk management and financial stability, corporate finance and governance);
3. Marketing (marketing management, digital marketing, brand management, advertising business, trade marketing);
4. Organizational Behavior and Management (leadership and organizational culture, human resource management practices, strategic management and decision-making, organizational change and innovation);
5. Social Issues and Policy (social entrepreneurship and innovation, social security policy, gender equality and diversity management, health care management and policy);
6. Globalization and international trade (trade policy and agreements, global supply chain management, cross-cultural management challenges, international business strategies);

7. Environmental sustainability (green technologies and sustainable development, climate change mitigation and adaptation, corporate social responsibility, environmental economics and policy);
8. Technological innovations and digital transformation (digital economy and e-commerce, innovation management, application of artificial intelligence and machine learning, implementation of information technologies and their impact on organizations);
9. Political Economy and Governance (public policy analysis, political economy of development, governance and institutions, corruption and governance issues);
10. Psychology (Psychology and personality development in management, personality in the socio-economic sphere, psychology of personality in crisis and uncertain conditions).
