

**May 14, 2022 (80 days)**

The Russian military fired a high-precision missile at a thermal power plant in Kremenchuk, **Poltava region**. Restoration work has just begun at the station, and today it was hit again.

It is reported that the Russian occupiers blew up three bridges important for the offensive in the **Kharkiv region** during the retreat. The Russian military also fired unguided missiles at the Sumy border.

At night, the Russian military fired on the **Dnipropetrovsk region** from Hurricane jet systems.

Every day, Russian invaders destroy about 50 private homes in the **Luhansk region**.

Negotiations were held today on the evacuation of 60 people from Azovstal in **Mariupol**. About 150-170 thousand Mariupol residents remain hostages of the occupying power in the city, where there are problems with drinking water, food and money.
